

# TOWN OF MOUNT PLEASANT

## Notice of Change of Service

### Effective September 15, 2008

The Town of Mount Pleasant is installing a new, high tech way of locating, marking, and categorizing standard piles of residential trash left out for pick up. Trash includes leaves, brush, appliances, furniture, etc. We do not collect contractor or construction debris.

The new system lets the sanitation truck drivers electronically mark trash you leave out for pick up on the day they pick up your garbage. At the end of the day, the locations are sent to a mapping system that allows supervisors to determine the specific areas that will need trash collection.

The sanitation crews will use these maps the next day to pick up your trash in a much more efficient manner. This system will drastically decrease the miles that collection crews will have to cover. It will save your tax dollars, increase fuel efficiency, reduce carbon fuel emissions, and decrease wear and tear on the Town's infrastructure.

#### WHAT WILL CHANGE?

Curbside debris will no longer be picked up on the same day as your garbage; it will be picked up the following day. Residents must place their curbside debris with their garbage to allow Public Services crews to mark the location ahead of time.

We hope that you will appreciate the reasons why we are making these changes. We look forward to bringing you more efficient services and a better government!

#### GARBAGE & TRASH SANITATION SCHEDULE

Trash should be separated by type into separate piles:

- Yard debris (bagged leaves & cut limbs)
- Metal Appliances
- Furniture

Garbage & Trash placed curbside by 7:00 a.m.	Garbage Collected	Trash Collected
Monday Tuesday Wednesday Thursday	Monday Tuesday Wednesday Thursday	Tuesday Wednesday Thursday Friday
