

SFCF Board of Directors
SFCC Proposed Project Committee

Survey Report

Survey Card Count:

211 Generally IN Support (49.76% of Completed Cards)
170 Generally NOT In Support (40.09% of Completed Cards)
43 Undecided (10.15% of Completed Cards)
424 Total Completed Survey Cards (48% of 890 Snee Farm Homes)

(Five "Misc." were not completed properly to qualify for the above data, but comments were noted.)

Notes:

- Survey cards were certified on 12/3/06 by M. Boroughs, D. Teetor, J. Walker.
- Comments were evaluated by B. St.Onge, Dan Childress, Peter Wright, J. Walker.
- Numerous responses that were Generally NOT In Support, or Undecided, indicated that they would be Generally IN Support upon receipt of satisfactory answers to certain questions or additional information, or certain specific conditions were met.
- The three most prevalent comments pertained to:
 1. Residential density.
 2. Potential traffic impact.
 3. Statements of support for the project as proposed.
- In addition, there was a myriad of other comments both positive and negative. Rather than the Committee trying to quantify or interpret them, we attached a compilation of all comments from the survey cards for your review.
- Also attached are copies of miscellaneous related correspondence provided by the respondents to the Committee as supplemental comments to their respective survey cards.
