NOTES

ACC: Bryan Carter

- Reminder any exterior changes need to be permitted. That includes new roofs, painting (not touch up), driveways and any tree in the neighborhood over six inches is protected by our ADAR, regardless of species. There is quite a disparity between Snee Farm and the town's policies. It doesn't mean it will be under any additional scrutiny. The reason for that, for example is we always permit pines, crapes, other sorts of ornamental trees, etc. We don't have any problem permitting those but some of our neighbors are in unfortunately circumstances because maybe all they have are seven or eight pine trees in their yard. We will not allow you to cut down all your trees and clear cut your yard. That we will protect. When in doubt feel free to reach out. You can call or email. When requesting a permit please use the online form.

PRESIDENT: Adrian Cain

- Annual meeting is normally in September but it has been moved to October. We have board elections as part of that process. I hope everyone has gotten their nomination forms. We have three seats. In the October meeting will bring a set of recommendations based on meetings occurring with the town of Mt Pleasant around safety, speed humps, signage. We won't bring final decisions in October but a set of recommendations. We will ask the community to tell us what they think of the recommendations, what do they bring to the community? Even at that point we probably won't be able to go through all of them because there will be budget implications for the town and the community. What I anticipate is a phased in approach. You all may be aware, the cameras are a part of that already and the nighttime drive-thrus.
